## EXPERIENCE

---

### Northrop Grumman, Roy, Utah

Software Engineer Intern

May 2023 – Current

- Implemented an automated data transfer system from Microsoft SharePoint to a SQL server, utilizing tools like Power Automate and Python for efficient data collection and manipulation before transmission to the server.
- Wrote a data optimization algorithm in support of the logistics organization's desire to streamline their goods movement location strategy.
  - Prior, product was shipping to 50+ diverse locations. After optimization, shipments can be realigned to the 6 distribution hub locations for quicker material receipt processing and inventory management. Over 5,800 lines items and \$4B in product analyzed.
- Participate in the creation and upkeep of 10 Power BI dashboards used by various sectors across the company.
  - Write SQL queries to efficiently pull necessary data.
  - Automate dashboards to automatically refresh data.
  - Correct numerous errors in pre-existing algorithms to ensure accurate data delivery.
- Assist in the implementation of a SQL server.
- Assist in the transition from Power BI to Tableau, requiring the quick and efficient learning of new skills.

### Morty's Car Wash, South Weber, Utah

Associate

May 2022 – May 2023

- Work on the creation and continued upkeep of the company website.
  - Ensure user-friendly environment.
  - Maintain up to date company information.
- Maintain company network.
- Exemplify exceptional customer service.
- Inspect and maintain company assets to ensure 100% uptime.

### Weber State University, Ogden, Utah

Lead Testing Proctor

October 2020 – May 2022

- Monitor students during testing to ensure that all testing center policies are kept.
- Provide good customer service with students and faculty.
- Check students in and out of computers with limited space available.
- Foster good working relationships with students, faculty, and coworkers.
- Work with lead proctors at other testing centers to ensure that policies are easily identified and well-kept.

**Avantguard, Ogden, Utah**

Alarm Dispatch Operator

July 2020 – October 2020

- Process burglar, fire, and other alarm signals quickly, accurately, and professionally in stressful situations in English and Spanish.
- Dispatch proper authorities and verify that help is on the way to responsible parties.
- Document all responses for the alarm on the computer.

**LEADERSHIP/VOLUNTEER SERVICE**

---

**The Church of Jesus Christ of Latter-day Saints, Cali, Colombia**

Full-time Volunteer Representative

August 2018 – March 2020

- Served as Executive Secretary to the President.
